

PROUDLY MADE IN ITALY

ONE

Light and resistant titanium frame
Adjustable nose piece, side shields supplied
Wide range of prescriptions
Flexible hinges

Techne Black EDITION

Sporty and wraparound design for a perfect fitting
Frontal metal insert for implemented resistance
Exclusive colour and packaging
Integrated coverage of the lateral areas

Techne RX

The exclusive Techne frame gives stability and protection
Wide range of prescriptions
Adjustable nose piece
Integrated coverage of the lateral areas

ASH

Elegant and essential with carbon fibre temples
Adjustable nose piece, side shields supplied
Wide range of prescriptions
Available in two sizes

Techne

Sporty and wraparound design for a perfect fitting
Frontal metal insert for implemented resistance
Adjustable nose piece
Integrated coverage of the lateral areas

IRIS

Wide range of prescriptions
Adjustable nose piece
Available in two sizes
Prismatic TTL available only in Large version

EVO

A mix of high-tech materials for an ultra-lightweight system
Independently adjustable interpupillary distance
Protective lens included
Can be worn over prescription eyewear

HEADGEAR

Flexible structure with no pressure points
Adjustment of the vertical axis and declination angle
Interchangeable sweatband sponges
Can be worn over prescription eyewear

AIR-X

Unique ergonomic frame
Extremely intuitive adjustment of the optical system
Protective lens included
Can be worn over prescription eyewear

quick loupes

The special features of Univet Galilean optical system allows an innovative approach to magnification systems. The exclusive models, proposed with pre-defined interpupillary distances, maintain the advantages and optical characteristics of a TTL device.

LED light system

eos 2.0

Compact and powerful device with top level design
Weight: 11 g
Luminous intensity: 35000 Lx at 350 mm
Battery life: 8 hours at full intensity

TTL	FLIP-UP
High customization Optimal weight balance Ready to use Improved depth of field It can be integrated with corrective lenses Lighter weight	Usable by several users Adjustable position of the binoculars Can be worn over prescription glasses Availability of Laser protection Adjustable declination angle Magnification up to 6.0X

GALILEAN	PRISMATIC
Lower magnification Lighter system Immediate adaptability Large depth of field Increased brightness of the system	More complex optical system High resolution Further enlargements Absence of optical distortion Less depth of field
